一 . 图片

文件位置: > gfx > superevent_pictures

大小: 455x455

注册位置: interface > adorable_heart_super_event.gfx (出于兼容性考虑, 建议各位 sub 作者在新文件中注册)

动态本地化: common > scripted_localisation > adorable_heart_super_event.txt

```
defined_text = {
    name = adorable_heart_Get_Super_Event_Image
    text = {
        trigger = {
            has_country_flag = super_event_rebuild_of_GER
        }
        localization_key = GFX_superevent_rebuild_of_GER
    }
    text = {
        trigger = {
            has_country_flag = super_event_CHI_1
        }
        localization_key = GFX_superevent_CHI_1
    }
    text = {
```

二 . 文本

动态本地化: common > scripted_localisation > adorable_heart_super_event.txt

标题:

```

defined_text = {
    name = adorable_heart_Get_Super_Event_Title
    text = {
        trigger = {
            has_country_flag = super_event_rebuild_of_GER
        }
        localization_key = super_event_rebuild_of_GER
    }
    text = {
        trigger = {
            has_country_flag = super_event_CHI_1
        }
        localization_key = super_event_CHI_1
    }
    text = {

```

引言:

```

defined_text = {
    name = adorable_heart_Get_Super_Event_Quote
    text = {
        trigger = {
            has_country_flag = super_event_rebuild_of_GER
        }
        localization_key = super_event_rebuild_of_GER_QUOTE_LOC
    }
    text = {
        trigger = {
            has_country_flag = super_event_CHI_1
        }
        localization_key = super_event_CHI_1_QUOTE_LOC
    }
    text = {

```

引言出处:

```

defined_text = {
    name = adorable_heart_Get_Super_Event_Quote_Source
    text = {
        trigger = {
            has_country_flag = super_event_rebuild_of_GER
        }
        localization_key = super_event_rebuild_of_GER_QUOTE_SOURCE_LOC
    }
    text = {
        trigger = {
            has_country_flag = super_event_CHI_1
        }
        localization_key = super_event_CHI_1_QUOTE_SOURCE_LOC
    }
    text = {

```

关闭按钮:

```

defined_text = {
    name = adorable_heart_Get_Super_Event_Closed
    text = {
        trigger = {
            has_country_flag = super_event_rebuild_of_GER
        }
        localization_key = super_event_rebuild_of_GER_CLOSED_LOC
    }
    text = {
        trigger = {
            has_country_flag = super_event_CHI_1
        }
        localization_key = super_event_CHI_1_CLOSED_LOC
    }
    text = {

```

本地化示例:

```

super_event_rebuild_of_GER: "德意志归来"
super_event_rebuild_of_GER_QUOTE_LOC: "从马斯到梅梅尔，从埃施到贝尔特，德意志，德意志，高于一切，高于世间所有万物。"
super_event_rebuild_of_GER_QUOTE_SOURCE_LOC: "—§Y《德意志之歌》§!"
super_event_rebuild_of_GER_CLOSED_LOC: "Es lebe Deutschland!"

```

三． 音乐

位置: `music > super_event >`

格式: ogg

注册: `music > super_event > ≡ superevents.asset` 和

`music > super_event > ≡ Superevents.txt`

注册示例:

```

music = {
    name = "rebuild_of_GER_superevent"
    file = "das_Deutschlandlied.ogg"
}

```

```

music = {
    song = "rebuild_of_GER_superevent"
    chance = {
        modifier = {
            factor = 0
        }
    }
}

```

调用:

```
adorable_heart_fire_super_event_music = {
    hidden_effect = {
        if = {
            limit = {
                has_country_flag = super_event_rebuild_of_GER
            }
            scoped_play_song = "rebuild_of_GER_superevent"
        }
        if = {
            limit = {
                has_country_flag = super_event_CHI_1
            }
            scoped_play_song = "CHI_1_superevent"
        }
        if = {
```

四 . 调用

```
common > scripted_effects > ≡ adorable_heart_super_event.txt
```

```
#changable
adorable_heart_clr_super_event_flag = {
    clr_country_flag = adorable_heart_Super_Event_Visible
    if = {
        limit = {
            has_country_flag = super_event_rebuild_of_GER
        }
        clr_country_flag = super_event_rebuild_of_GER
    }
}
```

(用于超事件结束后清除 flag)

调用 (通常用在新闻的选项中):

```
set_country_flag = super_event_rebuild_of_GER
set_country_flag = adorable_heart_Super_Event_Visible
adorable_heart_fire_super_event = yes
```

第一行: 区分不同超事件的特征 flag

第二行: 显示超事件 ui

第三行: 播放 BGM
